~~Dear Jeff:~~

I'm writing to let you know how vital and informational your presentation was yesterday to the Main and Clinton Board.

I have received only positive feedback on your report and articulate skills for the in-depth presentation at a level of understanding for those unaccustomed to thinking ahead in such detail. Your calculation of time and effort to be taken to calculate the hotel costs for linen laundry from extra guests is a tribute to your leaving no stone unturned. Your company is exemplary in their detailed analysis and it is our good fortune that you are part of the Renaissance Square team of visionaries.

We thank you for your time and insight.

Sincerely,

Mark Aesch
